COURSE GUIDE

— oapa.

Executive

President

Dr Joseph Crawford (University of Tasmania) is Editor in Chief, JUTLP, with a h-index of 19, and 4,200 citations over five years.

Vice President

A/Prof Michael Cowling (Central Queensland University) is also President, ASCILITE, with a h-index of 14, and 1,300 citations

Secretary

Chair, Partnerships

Dr Jo-Anne Kelder (HigherEd Consultant) is Editor of the HERDSA journal, ASRHE, with a h-index of 13, and 800 citations.

Treasurer

Mr David Kewley, CA, is an experienced accountant and board treasurer, and managing director at DK Accounting and Advisory

A/Prof Gail Wilson is an experienced higher education leader, with numerous sector roles including TEQSA reviewer, with a h-index of 6 and 700 citations.

Chair, Education

OAPA grew in response to uncertainty in open access publishing

The Open Access Publishing Association was founded in 2023 to challenge the current model of publishing.

Founding members of OAPA established the association in defiance of a pay-to-publish and pay-to-read model in favour of open science.

Our Journal

JUTLP

Journal of University Teaching & Learning Practice

JUTLP is a peer-reviewed journal publishing papers that add significantly to the body of knowledge describing effective and innovative teaching and learning practice in the higher education environment. The Journal aims to provide a forum for educational practitioners in a wide range of disciplines to communicate their teaching and learning outcomes in a scholarly way. Its purpose is to bridge the gap between journals covering purely academic research and more pragmatic articles and opinions published elsewhere. The Journal is indexed by Scopus (Q2, Education) and Web of Science ESCI (Q2, Education) and listed with the EBSCO database. ISSN: 1449-9789.

Key statistics:

- 910,849 downloads since 2006.
- 12,369 downloads per month in 2023.
- Largest education journal in Australia 2023.
- 725 articles since 2004.
- Scopus Q2
 - 3.1 CiteScore 2023 (partial year),
 - 2.7 CiteScore 2022.
- Web of Science Impact Factor 1.6 (Q2).

Foundations of

Academic Peer Review

— oapa.

Welcome

Why learn peer review?

Peer review is a safeguard

Academic disciplines and communities rely on a pool of capable reviewers with disciplinary and methodological expertise, who can provide high quality, timely reviews and advice to editors, that allows effective communication of information and decisions to authors.

Effective academic peer reviewing requires a specific set of skills and knowledge, beyond those that are developed through academic research and teaching in a disciplinary context. An academic peer reviewer's role can be described as disciplinary and scholarship custodian. The academic peer review function is responsible for ensuring accurate and ethical dissemination of knowledge, communicating assessment of research to ensure publication of research that is scholarly, ethical and contributes to knowledge.

This course is designed to provide foundational theoretical knowledge and practical skills to develop effective academic peer reviewing practices. Understanding quality markers that can be used to evaluate a manuscript and make recommendations will support academics to design research projects and ensure author submissions meet journal expectations.

Welcome

Learning Objectives

On completion of this course, you will be able to...

1. Explain the purpose and role of academic peer reviewing.
2. Analyse manuscript elements for quality.
3. Construct actionable feedback for authors to improve their research and communication
4. Recommend an evidence-based decision on a manuscript

Curriculum

The Foundations of Academic Peer Reviewing comprises three modules spaced out over a three-month period, with a final month for completing an optional credential assessment, or approximately 50 hours AQF level 8 volume of learning.

Each module requires 8-12 hours self-paced core learning, with optional supplementary extension readings and activities. A three-hour active learning online workshop is scheduled at the end of each module, with the optional assessment period commencing after.

Curriculum

Module 1. Foundations of Academic Peer Review

Participants are introduced to each of the foundation activities of the academic peer review role and their purpose in assuring quality research. Activities include considering individual expertise against an invitation to review, evaluating a manuscript against criteria, identifying critical elements for revision, writing the review, communicating feedback to authors and editors. The module includes a historical perspective to identify and discuss the purpose of each activity and its contribution to reliable knowledge dissemination.

Module 2. Quality Systems and Criteria for Peer Review

Participants are introduced to common systems of peer review, including methods for ensuring integrity of decision-making on whether a manuscript is ready to be published. This includes quality considerations related to understanding the limits and extent of your expertise, following specific guidance provided to reviewers, identifying appropriate critical appraisal tools, and self-evaluating your peer review comments. The module includes common areas of conflict, ethical issues, and concerns that may arise during the peer review process.

Module 3. Feedback Principles and Writing a Peer Review

Participants will learn strategies for writing constructive peer review comments against provided criteria. Participants will apply knowledge and skills from Modules 1 and 2. They will critically examine a sample manuscript submission and identify the relevant expertise required to evaluate the quality of the research and the quality of the paper. They will write feedback against example criteria designed to support authors to revise and resubmit a manuscript.

Assessment Credential Process

This short course provides the opportunity for participants to complete an assessment where participants will be provided a mock manuscript for constructing an initial review letter alongside commentary on the appropriateness of their reviewer capacity and limitations.

Satisfactory completion of the final assessment, and engagement in at least two of three workshops, will enable participants to receive a digital badge credential and Certificate of Completion from the Open Access Publishing Association.

Instructors

A/Prof Gail Wilson is an experienced editor and peer reviewer, currently consulting to multiple higher education providers, serving as a TEQSA expert, and Senior Editor, Educational Leadership and Psychology, Journal of University Teaching and Learning Practice. The course is informed heavily by an editorial Gail served as co-lead of. Gail is an Adjunct Associate Professor, Office of the Pro-Vice Chancellor (Innovation and Change) at Southern Cross University.

Dr Alison Purvis has over 20 years of experience in higher education and is a teaching and learning specialist who is active in research in pedagogy, technology enhanced learning, inclusive practice, and sport and exercise physiology. As an Associate Dean, Teaching and Learning Alison's role is to provide visible strategic leadership of teaching and learning within the College of Health, Wellbeing, and Life Sciences. She is accountable for the student academic experience, and she supports delivery of the University's strategic aims and operational priorities for teaching and learning. Alison is recognised as a Principal Fellow of the Higher Education Academy (PFHEA).

Foundations of

Academic Journal Editing

- oapa.

Welcome

Why learn about journal editing?

Academic editing is essential

Academic disciplines and communities rely on prepared, experienced, and capable editors who can manage a publication process that compasses an initial (desktop) review, managing a peer review process and communicating information and decisions to authors.

Effective academic journal editing requires a specific set of skills and knowledge, beyond those that are developed through academic research and teaching in a disciplinary context. An academic journal editor's role can be described as process manager and scholarship custodian. The academic editor function is responsible for ensuring a system of peer review and communicating results to ensure publication of research that is scholarly, ethical and contributes to knowledge.

This course is designed to provide foundational theoretical knowledge and practical skills to develop effective academic journal editing practices. Understanding quality markers used to evaluate a manuscript from an editor perspective will support academics to design research projects and ensure author submissions meet journal expectations.

Welcome

Learning Objectives

On completion of this course, you will be able to...

1. Explain the purpose and role of an academic editor.
2. Explain the process of managing a manuscript from submission to publication.
3. Apply critical analysis of aims and scope against a manuscript.
4. Evaluate peer reviewer comments to ensure actionable feedback to authors of a manuscript.

Curriculum

The Foundations of Academic Journal Editing comprises three modules spaced out over a three month period, with a final month for completing an optional credential assessment, or approximately 50 hours AQF level 8 volume of learning.

Each module requires 8-12 hours self-paced core learning, with optional supplementary extension readings and activities. A three-hour active learning online workshop is scheduled at the end of each module, with the optional assessment period commencing after.

Curriculum

Module 1. Foundations of Academic Journal Editing Roles

Participants are introduced to each of the foundation activities of the academic journal editor role: review, peer reviewer management, communicating feedback and decisions to authors. The module includes a historical perspective to identify and discuss the purpose of each activity and its contribution to reliable knowledge dissemination.

Module 2. Managing Quality Peer Review

Participants are introduced to common systems of peer review, including methods for ensuring integrity of decision-making on whether a manuscript is ready to be published. This includes quality considerations related to recruiting reviewers, providing training and guidance to reviewers, and evaluating peer review reports.

Module 3. Communicating Decisions Through Letters

Participants will learn strategies for writing constructive editor decision letters. Participants will apply knowledge and skills from Modules 1 and 2. They will critically examine a sample manuscript submission and associated peer review reports. They will write additional editorial feedback designed to support authors to revise and resubmit a manuscript that effectively responds to reviewer feedback.

Assessment Credential Process

This short course provides the opportunity for participants to complete an assessment where participants will be provided a mock manuscript, reviewer details and letters, and write an initial decision letter alongside commentary on the appropriateness of the reviewers and their comments.

Satisfactory completion of the final assessment, and engagement in at least two of three workshops, will enable participants to receive a digital badge credential and Certificate of Completion from the Open Access Publishing Association.

Instructors

Dr Joseph Crawford is an award-winning educator, researcher, and entrepreneur currently working at the University of Tasmania, Australia. Dr Crawford publishes on leadership, higher education, and organisational psychology, and has more than 3,000 citations since 2019. Dr Crawford has been the Editor-in-Chief of the *Journal of University Teaching and Learning Practice* since 2020. This Journal, with his editorial leadership has increased from Scopus CiteScore of 1.1 in 2020 to 2.6 in 2022, while sustainably increasing number of accepted publications from 146 (2017-2020) to 253 (2019-2022). He has trained 100s of currently serving editors. Recently, he published an editorial proposing an editorial decision framing, and draws on this framework in this course.

Dr Jo-Anne Kelder designs and delivers SOTL capability training through Jo-Anne Kelder Consulting, and is an Adjunct Senior Researcher at the University of Tasmania. Dr Kelder is nationally recognised in learning and teaching with involvement in the Australian Learning and Teaching Council, national Office of Learning and Teaching programs, and she was awarded a Joint Fellowship by the Australian Council of Deans of Science (2019). She has served in diverse editor roles across the *Journal of University Teaching and Learning Practice*, and an inaugural Co-Editor for HERDSA's new journal, *Advancing Scholarship and Research in Higher Education*.

Timetable

Foundations of Academic Peer Review

The **AUSTRALIA Course Schedule 2024** includes:

- Welcome workshop (1 hour), 4 March
- Module 1 workshop (3 hours), 1 April
- Module 2 workshop (3 hours), 6 May
- Module 3 workshop (3 hours), 3 June
- Assessment due, 30 July

The workshops are held on Zoom from 4pm AEST.

The **UK Course Schedule 2024** includes:

- Welcome workshop (1 hour), 3 April
- Module 1 workshop (3 hours), 8 May
- Module 2 workshop (3 hours), 5 June
- Module 3 workshop (3 hours), 3 July
- Assessment due, 30 August

The workshops are held on Zoom from 4pm UK local time.

Foundations of Academic Journal Editor Roles

The **AUSTRALIA Course Schedule 2024** includes:

- Welcome workshop (1 hour), 5 August
- Module 1 workshop (3 hours), 2 September
- Module 2 workshop (3 hours), 7 October
- Module 3 workshop (3 hours), 4 November
- Assessment due, 30 December

The workshops are held on Zoom from 4pm AEST.

The **UK Course Schedule 2024** includes:

- Welcome workshop (1 hour), 14 August (4pm BST)
- Module 1 workshop (3 hours), 4 September (4pm BST)
- Module 2 workshop (3 hours), 9 October (4pm BST)
- Module 3 workshop (3 hours), 6 November (4pm GMT)
- Assessment due, 30 December

The workshops are held on Zoom from 4pm UK local time.

Note: British Summer Time (BST) runs from 31 March to 27 October 2024 and is Greenwich Mean Time (GMT) +1 hour.

Course Details

02 **Delivery**

The course comprises:

- Digital narrative materials
 - Monthly Zoom workshops
 - Credential assessment (optional)
-

03 **Price**

The course is priced at \$750, and bulk discounts are available.

04 **Enrolling and questions**

Enrol before the first day of classes by emailing Dr Kelder:
jo.kelder@utas.edu.au

— Join OAPA

Institutional Membership

Course Access Only

\$5,000

Provide 10 access places to any of the courses that OAPA offers, alongside free seminar access for those 10 members.

Standard Institutional Membership

\$7,500

Provides all employees access seminar series, and public acknowledgement of membership status on the Journal website, in Journal member communications and reports, and 5 student course enrolments per year.

Premium Institutional Membership

\$12,500

Provides all employees access seminar series, dedicated seminar(s) on topics relevant to the staff of the member organisation, 15 student course enrolment places per year, and prioritised public acknowledgement of membership status on the Journal website, and in Journal member communications and reports.
